INSIDE

Dopo aver raggiunto una posizione leader nella progettazione e produzione di apparecchi e componenti per illuminazione, facilmente riconoscibili per il loro stile inconfondibile, AldoBernardi amplia la propria gamma di prodotti con le nuove sorgenti luminose a led, sia per ambienti interni che esterni. Differentemente dalle tradizionali sorgenti di luce, il led è la risposta sicura ed intelligente in materia di risparmio energetico. Anche in queste proposte innovative, ben si riconosce lo "stile" AldoBernardi, caratterizzato come sempre dalla ricerca di armonia e dalla capacità di "personalizzare" qualsiasi superficie da illuminare. È da questo punto di partenza che si sviluppano le proposte in ceramica smaltata, quelle in ottone anticato o quelle con la nuova finitura argento. Per la loro versatilità diventano punti luce ideali, in grado di unire magnificamente stile e funzionalità.

AldoBernardi is leader in the design and development of lighting equipment and components with a range of products that are easily recognisable thanks to their unmistakable style. Following this success, AldoBernardi has now extended its range of product to include new LED light sources for both interior and exterior applications. Unlike traditional light sources, LED lighting is the safe and intelligent solution to the energy saving problem. AldoBernardi's "style" also characterises these new innovative products, with features that aim to create harmony and "personalise" all the surfaces to be illuminated. This was the starting point for the creation of glazed ceramic and aged brass products as well as products with a new silver finish. Thanks to their versatility these lamps are ideal lighting points that excellently combine style and functionality.

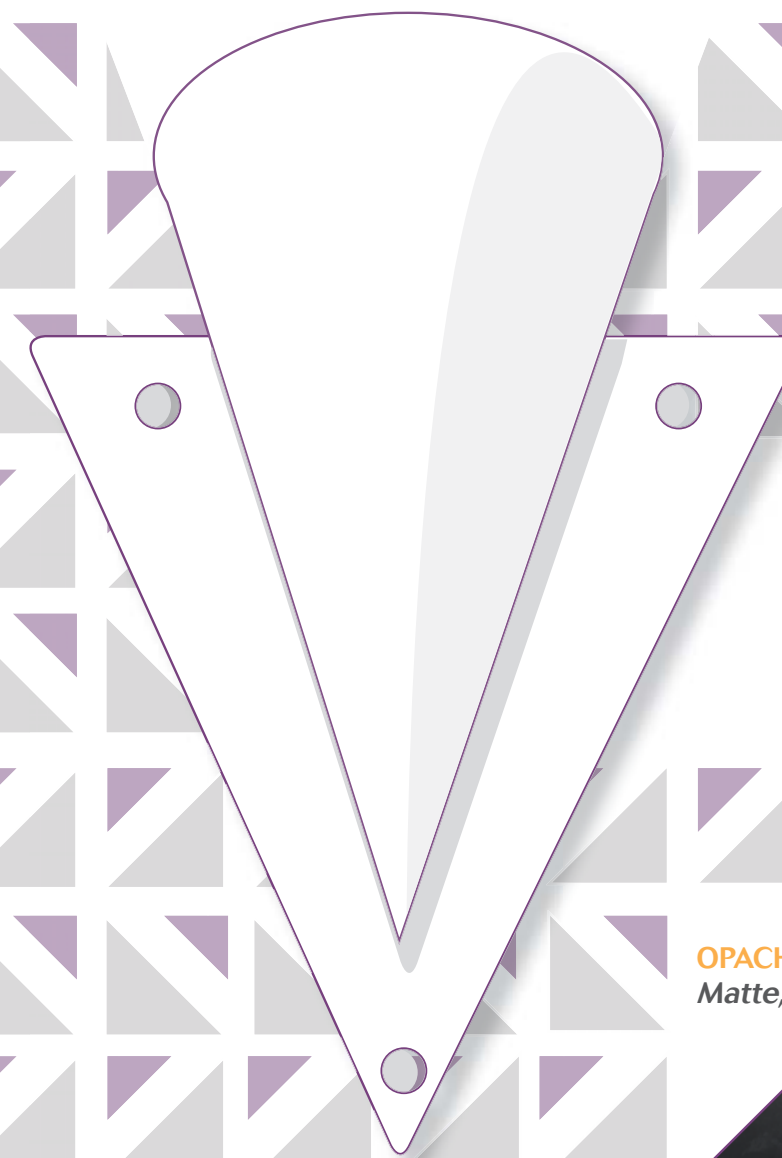

OUTSIDE

Faretti da soffitto e/o parete realizzati in elegante ceramica smaltata, disponibili in diverse forme e colorazioni. Uno splendido connubio tra design e tecnologia per una serie di prodotti che danno nuovo ritmo all'illuminazione da interno.

Elegant glazed ceramic ceiling and/or wall spotlights available in different shapes and colours. A wonderful alliance of technology and design for a series of products that give a new rhythm to interior lighting.

led realizzata su strutture a
parete dalle dimensioni contenute.

La linea contiene inoltre un'interessante
proposta di fonte luminosa che, mimetizzata all'interno
di arbusti o cespugli, esalta i particolari producendo
affascinanti giochi di chiaroscuro.

*Preview of LED lighting with compact wall structures.
The line also contains an interesting range of lighting
which sits camouflaged inside bushes or hedges
and highlights their details, producing charming
chiaroscuro effects.*

SOIRÉE

DIGGER: Per gli articoli delle linea Soirée AldoBernardi ha studiato e disegnato una serie specifica di basi interrante. Su stampi esclusivi AldoBernardi, si interrano perfettamente così da garantire alle strutture luminose la migliore integrazione con l'ambiente e la massima stabilità, oltreché la assoluta sicurezza per il passaggio dei cavi elettrici.

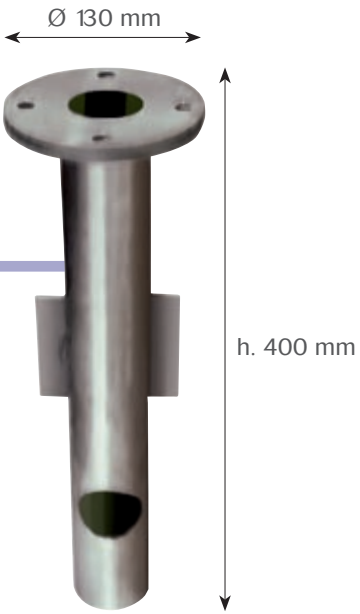

DIGGER: AldoBernardi has studied and designed a specific series of anchored bases for the items in the Soirée lines. The bases are manufactured using exclusive AldoBernardi casts and anchor perfectly in the ground ensuring that the lighting fixtures fully integrate into the environment with maximum stability and guarantee absolutely safe power cable passage.
