FRAMMON S.p.A.®

2011

FRAMON S.p.A. è una importante azienda che dal 1973 si colloca sul mercato come produttrice di componenti in fusione per illuminazione ed arredamento in materiali non ferrosi e la sua produzione conta circa 10mila articoli, buona parte dei quali disponibili a magazzino.

FRAMON S.p.A. è una “fonderia” estremamente versatile che si avvale di alcune fra le più importanti tecnologie di trasformazione della materia prima come: la pressofusione, la fusione in conchiglia con e senza anima, lo stampaggio a caldo; impiegando materie prime come l'alluminio, l'ottone, la zama e alcuni tipi di materie plastiche. Con il supporto di un Designer interno e di tecnici qualificati oggi FRAMON S.p.A. è in grado di ideare e proporre nuovi articoli da sviluppare partendo dalla realizzazione di disegni ed eventuali prototipi, creando progetti e stampi per arrivare alla produzione, anche su specifica richiesta del cliente. E' in grado di eseguire qualsiasi tipo di lavorazione meccanica sulle fusioni prodotte, utilizzando importanti macchinari tecnologicamente avanzati e costantemente rinnovati, come complessi transfer, torni a controllo numerico e centri di lavoro. FRAMON S.p.A. propone i propri articoli con una finitura superficiale che si ferma volutamente al primo stadio di burattatura o di sabbiatura, ma su specifica domanda, è in grado di fornire il materiale con la tipologia di finitura superficiale come da richiesta. Negli ultimi anni ha preso vita nuovo percorso produttivo, che propone articoli in alluminio, ottone e policarbonato “finiti”, che nello specifico, vengono cablati, verniciati e montati. FRAMON S.p.A. è divenuta negli anni un partner importante per tutte le aziende operanti nel settore dell'illuminazione e dell'arredamento.

FRAMON S.p.A. is an important company that since 1973 is present in the worldwide market as one of the main manufacturing company of non-ferrous casting components for the furniture and lighting industry. It has three catalogues with about 10.000 articles ; a very good part of them is available in the warehouse.

FRAMON S.p.A. is a very flexible “foundry” that makes use of some of the most important technologies of transformation of the raw materials, like die-casting, gravity casting with and without core, hot stamping; mainly product are made with aluminium, brass, zama and plastic. With the support of an internal designer and qualified technicians, today FRAMON S.p.A. is able to conceive, propose and develop new articles starting with the realization of drawings and possible prototypes, creating projects and stamps, up to the concrete manufacturing also under customer exclusive projects and design. The company is extremely flexible as it is able to perform every kind of mechanical and machining process on castings using technological advanced and continually renewed machinery like transfers, lathes CN and machining centers. FRAMON S.p.A. proposes its articles with a surface finishing at the first step of bolting and sandblasting. On specific demand, with the help of a well-organized local craftsmanship, can also be provided the material with the superficial finishing required by the customer. In the last few years FRAMON S.p.A. having as core business base the lighting components production develop a new branch of lighting fixture (aluminium , brass and plastic made) full assembled , wired and packed in single boxes ready for installation. FRAMON S.p.A. is looking forward to become a close partner of all Companies that are in the lighting and furniture field.
